

TECHNICIAN – CHEMICAL BIOLOGY – NEUROPEPTIDE RESEARCH

Position Title:	Technician – Chemical Biology
Organisation Unit:	Faculty of Chemistry Institute of Biological Chemistry Neuropeptide Research Group (A/Prof. Muttenthaler)
Type of Employment:	Part-time (>20h) or full-time (40h)
Further Information:	Applications accepted until position filled www.neuropeptidelab.com

THE UNIVERSITY OF VIENNA

Open to new ideas. Since 1365. The University of Vienna (15 faculties, 4 centres, >150 fields of study, ~9,500 members of staff, >90,000 students) is a research university with high international visibility and a wide range of degree programs. The University of Vienna is committed to fundamental and applied research, research-led teaching, career development for young researchers and to a dialogue with economy and society. Appointments of high quality researchers is an important strategy of the University of Vienna to contribute to the education of future generations and to the society's ability to innovate.

Organisational Environment

The **Department of Chemistry** with its young and diverse faculty offers a highly attractive environment for young researchers from around the world starting at the level of PhD students and postdocs towards junior group leaders that establish their own research field here. It is one of the largest postgraduate training centres in Austria and this highly intellectual and well-equipped environment is complemented by strong career development programs of the University of Vienna and other research organisations in Vienna.

The advertised position will be part of **Neuropeptide Research Group at the Institute of Biological Chemistry**. The Institute of Biological Chemistry is a centre for peptide and protein chemistry established in 2011. It is part of the Department of Chemistry at the University of Vienna with a strong link to the Medical University of Vienna (Centre for Physiology and Pharmacology), the Max F. Perutz Laboratories with their focus on Molecular and Structural Biology, and the Department of Food Chemistry and Toxicology. Together these departments form an outstanding environment for research at the interface of synthetic chemistry, molecular biology, pharmacology and medicine.

POSITION DESCRIPTION

A talented technician with experience in chemical biology, pharmacology and molecular biology is sought to join the Neuropeptide Research Group at the Institute of Biological Chemistry at the University of Vienna. The group is focused on the exploration of nature's biodiversity to develop molecular probes and discover novel therapeutic leads with applications in pain, cancer, memory, autism, gastrointestinal disorders and neurodegenerative diseases. The successful applicant will be involved in the pharmacological characterisation of molecular probes and therapeutic leads, management of cell cultures, recombinant peptide/protein expression and chemical peptide synthesis.

Duties

Duties and responsibilities include, but are not limited to:

Research Duties

- Bioassays and management of cell cultures
- Pharmacological and biophysical characterisation of peptides
- Recombinant protein/peptide expression and/or peptide synthesis
- Preparation of reports of experimental findings for publications and presentations
- Liaising with team members to achieve project goals

Administrative Duties

- Support with administrative tasks
- Chemical purchases, quotes and equipment maintenance
- Participation at research meetings and maintenance of an accurate lab book
- Any other duties as reasonably directed by your supervisor

Organisational Relationships

The position reports to A/Prof. Markus Muttenthaler.

SELECTION CRITERIA

Essential

- BSc, MSc in the area of Chemical Biology, Pharmacology, Molecular Biology or Biochemistry
- Demonstrated experience in cell culture management, molecular biology and pharmacology
- Well-developed laboratory and problem-solving skills for bioassays and analysis
- Experience with recombinant expression systems for peptide/protein production
- Ability to work collaboratively with colleagues and across disciplines
- Excellent written and verbal communication skills in English

Desirable

- Experience in GPCR pharmacology (IP-1, cAMP, binding, BRET, FLIPR assays)
- Experience in cell migration, wound healing and apoptosis assays
- Experience with bioactive peptides and solid phase peptide synthesis
- Experience with HPLC and LCMS techniques for peptide purification and analysis

APPLICATION SUBMISSION

Please email your application package (cover letter, CV, statement addressing the individual selection criteria, contact details of two referees) to markus.muttenthaler@univie.ac.at with 'Application for Technician - Chemical Biology' in the email subject line.
